**The Q-Top<sup>®</sup>** is a vinyl table cover cut to size with fitted corners. It is manufactured to fit 4ft, 6ft, and 8ft tables in 24" and 30" widths.

This eliminates the need to cut and staple the vinyl to your tables. The material is made from a high quality vinyl that is fire retardant / CA Title 19 Compliant. The material's solid white finish will not allow any imperfections on your table surfaces to show through.

**Q-Tops<sup>®</sup>** come individually rolled and are packed 20 pieces per inner carton:

- 4ft. Q-Tops<sup>®</sup> are packed 5 inner cartons per master carton for a total of 100 pieces
- 6ft. Q-Tops<sup>®</sup> are packed 4 inner cartons per master carton for a total of 80 pieces
- 8ft. Q-Tops<sup>®</sup> are packed 3 inner cartons per master carton for a total of 60 pieces.

Q-Tops are designed to work like a fitted bed sheet. This fast and easy installation takes 30 seconds or less regardless of the installer's skill level. Simply pull down under one set of corners, unroll and repeat over the opposite corners. The Q-Top stretches tight to create a clean, professional look.

**Q-Tops<sup>®</sup>** are a "Green Solution" due to perfect fit. Traditional rolled vinyl had to be wider and longer than stapled to the tables.

### **Benefits Include:**

- REDUCED LABOR COST
- INCREASED PRODUCTIVITY
- NO CUTTING OR STAPLING
- NO WASTED MATERIAL
- PROFESSIONAL APPEARANCE ON EVERY TABLE
- POST SHOW REMOVAL IS FASTER AND CLEANER
- NO MORE REMOVING STAPLES
- AVOID INJURIES TO EXHIBITORS, ATTENDEES AND EMPLOYEES
